

High Impact Technology Exchange Conference

Educating America's Technical Workforce

Fairmont Scottsdale (Arizona)

July 19–22, 2009

Title: Session A6: Emergency Communication Technology and Education

Date/Time: Wednesday, July 22, 3:30 PM – 5:00 PM

Location: Fairmont Scottsdale Resort, Salon A

Description: Multi-disciplinary collaboration creates three credit college courses in the social and technological nature of early warning protocol. Technological applications for users and technicians of emergency public information and warning include basic wireless communications literacy, beginning digital electronics, radio theory, thermal imaging, SPSS. This session will have an interactive demonstration of wireless technology using short wave radio, GPS, and related curriculum for interoperability and analytic skills used by criminal justice, private security officers and citizens in determining emergency warning protocol for communities. This session will also explore career pathway modeling.

Presenters:

Bill Overby, Skagit Valley College

Dr. Benn Prybutok, Montgomery County Community College

Tom Prescott, Century College

Dr. Carol Mathews, Century College
