

**High Impact Technology Exchange Conference**

***Educating America's Technical Workforce***

**Fairmont Scottsdale (Arizona)**

**July 19–22, 2009**

**Title:** Session D3: Building the Skills for the Automotive Workforce

**Date/Time:** Tuesday, July 21, 3:30 PM – 5:00 PM

**Location:** Fairmont Scottsdale Resort, Salon D

**Description:** The Automotive Manufacturing Technical Education Collaborative (AMTEC) has worked closely with major automotive manufacturers to accurately assess their needs for highly skilled employees. Through an exhaustive DACUM coupled with a thorough Delphi validation process, AMTEC partners have identified the educational needs most in demand by automotive manufacturers.

Participants will not only learn the value of detailed needs analysis in developing curricula that target industry needs and that have already been adopted by major automotive manufacturers, but they will also learn how to replicate the process currently proving successful for AMTEC so that they can best meet the needs of the industries they serve.

**Presenters:**

Annette Parker, AMTEC

Dennis Parker, Toyota Motor Engineering & Manufacturing, North America, Inc.

Gary Saganski, Henry Ford Community College

Steve Howell, General Motors
