

High Impact Technology Exchange Conference

*Educating America's Technical Workforce*

Fairmont Scottsdale (Arizona)

July 19–22, 2009

**Title:** Session E5: Certification for Technicians

**Date/Time:** Wednesday, July 22, 1:30 PM – 3:00 PM

**Location:** Fairmont Scottsdale Resort, Salon E

**Description:** This session will provide a brief, but detailed overview of the skills tested in the Manufacturing Skills Standards Council (MSSC) CPT Credential Exam as well a discussion of the benefits of having such a national credential. This credential provides validation of entry level skills for a broad spectrum of manufacturing and production industries. The four topical areas covered by the exam are Safety, Quality and Measurements, Processes, and Maintenance Awareness. This session will provide background information about the MSSC certification as well as an overview of the exam contents, including sample test questions. Logistic information about where and how to get training as well as where and how the tests are administered will also be provided.

**Presenters:**

Dr. Marilyn Barger, P.E., Executive Director and P.I. FLATE

Dr. Eric A. Roe, Director FLATE
