

High Impact Technology Exchange Conference

Educating America's Technical Workforce

Fairmont Scottsdale (Arizona)

July 19–22, 2009

Title: Introduction to Computer Virtualization

Date/Time: Monday, July 20, 1:00 PM – 4:30 PM

Location: Fairmont Scottsdale Resort

Description: While there are many reasons one may consider implementing computer virtualization, a technical misunderstanding of the technology can make its clear benefits difficult to understand. This presentation will illustrate and demystify computer virtualization technology, taking a guided hands-on approach to engage the audience in the process of creating and maintaining virtual computing environments. The participants will experience firsthand the cost-saving advantages of virtualization in a number of common industry scenarios such as computer networking, cyber security, forensics, testing, troubleshooting, and education. Finally, the presentation will close with a discussion on current industry trends and future possibilities for the technology.

Presenters:

Gaby Hawat, Valencia Community College
Angel Melendez, Valencia Community College
Wael Yousif, Valencia Community College
